

A BIG DEAL.

Coming Consolidation of the Ohio Valley Concerns

MANUFACTURING SEWER PIPE.

Nine Concerns, Representing Half a Million Dollars Capital, Are in the Deal, Which Will Be Consummated Within Ten Days—Why This Step Will Be Taken—A Principal Office to Be Maintained.

The INTELLIGENCER has it on reliable authority that within the next ten days all the sewer pipe manufacturing concerns of the upper Ohio Valley, including firms at East Liverpool, Toronto, New Cumberland, Calumet, Empire and Freeport, will unite in one joint stock company, which will be incorporated under the laws of the state of Ohio, and will have a central office at either East Liverpool or Toronto. This is a big deal and involves probably half a million or three-quarters of a million of dollars.

A manufacturer who is interested personally in the deal told an INTELLIGENCER man last night that the proposed action of the Ohio Valley concerns had been precipitated and in fact compelled by the open declaration of the Akron combine of sewer pipe manufacturers, that unless the Ohio Valley people will form a combine and hold up prices they would dissolve their and bring prices for the product down to a disastrous figure. This would mean the immediate failure of three or four of the river concerns, which are not in shape to stand a long and probably bitter fight with the strong Akron consolidation. The proposed consolidation of interests has been discussed within the past week, and everything is nearly in shape for the organization of the new company, which will be one of the largest in the country, both in capital stock and amount of product.

The INTELLIGENCER's informant said that the firms that will be in the company include all the sewer pipe manufacturers in this section. They are Knowles, Taylor & Anderson, of East Liverpool; Calumet Fire Clay Company, Calumet, Ohio; Empire Fire Clay Company, Empire, Ohio; Great Western Fire Clay Company, Toronto, Ohio; John Francis' Sons, Toronto, Ohio; Market Sewer Pipe Company, Toronto, Ohio; P. Connor, Toronto, Ohio; McMahon, Porter & Company, New Cumberland, West Virginia; Freeport Fire Clay Company, Freeport, Ohio.

A meeting of the firms interested in the new movement will be held within the week, and within ten days the papers of incorporation will be applied for to the Ohio secretary of state.

MIGHT HAVE BEEN WORSE.

A B. & O. Passenger Engine Slide-wipes Six Freight Cars—No One Injured.

Yesterday morning Baltimore & Ohio passenger train No. 5, coming west, Engineer John Cummins, narrowly escaped being wrecked one mile west of Fairmont. The train had just left the Fairmont station and had already attained a considerable speed. An east-bound freight train was standing on a siding waiting for No. 5 to pass, but had not cleared the switch suddenly. The passenger locomotive struck the freight, sliding-wiping six cars, wrecking them badly, tearing out the sides. The freight cars were loaded with wheat. Engineer Cummins, as soon as he realized the danger, reversed his engine, and, together with the two men from serious injury, as their engine was considerably damaged. No other damage was done to No. 6, and no injuries were sustained by any one on either train.
